What Steps Do I Take to Get the Job I Want?

1. **Self inventory.** Think about your interests, skills, goals, and what you have experience doing.

2. **Explore jobs.** Find out what kinds of jobs you can get with your skills and experiences. Once you find a job you want, learn all you can about it.

3. **Get training and education.** Get the training and education you need for the job. Go to your local career center or library for information about schools and training programs in your area.

4. **Search for job openings.** Ask family and friends, look in local newspapers, and visit the local career or library for information about jobs in your area that fit your skills, interests, goals, and education.

5. **Apply and interview for jobs.** If you need assistance with job applications or interview tips, go to your local career center. Your career center may offer a workshop on finding and getting the job you want.
